PROFESSIONAL SUMMARY

Business operations and technology professional with 16+ months of experience at MPSeDC across project monitoring, stakeholder coordination, operational reporting, business analysis and resource planning for state-level e-governance projects. Experienced in coordinating with project teams, senior management and external stakeholders, preparing recurring management reports and Excel trackers, assessing project requirements, and using technology to improve internal processes and reporting. B.Tech in Computer Science with AI & ML, with hands-on exposure to SQL, Python, dashboards, web applications and AI-enabled tools.

PROFESSIONAL EXPERIENCE

Madhya Pradesh State Electronics Development Corporation Ltd. (MPSeDC) — Bhopal

Associate Engineer - Project Management Office (PMO) — Jun 2026 - Present

PMO Trainee - Project Management Office (PMO) | Managing Director's Office — May 2025 - Jun 2026

- Monitor state-level e-governance applications and web projects, including Sampada, Samagra and MP e-Seva, by tracking project-team activities, progress, technical status and ongoing work.
- Prepare recurring operational reports, Excel tracking sheets, management presentations, Minutes of Meetings, action trackers and review documentation for PMO and leadership reviews.
- Coordinate with project teams, internal stakeholders, senior management and external vendors; follow up on pending actions and support multiple concurrent priorities through to closure.
- Assess proposals raised for government departments by reviewing financial implications, commercial or free-of-cost status, proposed team structures and alignment with management directions.
- Evaluate resource requirements and manage resource assignment, alignment, mapping and planning based on technical skill fit, current bandwidth and upcoming project requirements.
- Support the Managing Director's Office with project reports, stakeholder follow-ups, meeting coordination and other high-priority operational assignments.
- Took on business-analysis responsibilities for ProMoT, MPSeDC's internal Project Monitoring Tool, and designed a lightweight dashboard to improve the usability of project information for non-technical users.
- Developed the ProMoT dashboard front end in Angular and mapped dashboard views to underlying MS SQL Server tables and columns.
- Contributed to an internal AI-assisted meeting-minutes portal built using React, Node.js, Python and the Gemini API, with batched context handling and database-backed recording storage to maintain reliability if the API is unavailable.

Prodigy InfoTech — Nov 2023

Machine Learning Intern

- Completed four machine-learning projects as part of the internship, gaining practical exposure to model development and data-driven problem solving.

PROJECTS

Tours & Travels Booking Platform — Client Project

React | Node.js | Tailwind CSS | MySQL | MSG91 | Linux VPS

- Independently designed and developed an end-to-end booking platform covering the frontend, backend and database for taxi, homestay and pandit-for-pooja bookings.
- Built booking workflows for single-day and multi-day taxi trips and pick-up/drop services, along with dedicated homestay and pooja booking functionality.
- Developed an admin panel to manage listings, bookings and customer feedback, providing a central operational interface for managing platform activity.
- Currently implementing OTP-based authentication using MSG91; deployed the complete application on a Hostinger Linux VPS.

ProMoT Dashboard MPSeDC

Angular | MS SQL Server | Business Analysis

- Designed and developed a lightweight dashboard for MPSeDC's internal Project Monitoring Tool to make project information easier for non-technical users to understand and use.
- Mapped dashboard requirements to the relevant MS SQL Server tables and columns and developed the Angular-based frontend for deployment alongside the existing ProMoT application.

AI Meeting Minutes Portal MPSeDC

React | Node.js | Python | Gemini API

- Contributed to an internal portal that records meetings and uses the Gemini API to identify participants and generate Minutes of Meetings.
- Implemented a workflow that passes context to the API in batches and stores meeting recordings in the database so minutes can still be generated when the API is temporarily unavailable.

Samvaad.AI - Indian Sign Language Interpreter B.Tech Final-Year Project

Python | TensorFlow | OpenCV | MediaPipe | LSTM

- Developed a real-time application that recognises Indian Sign Language alphabets from camera input, achieving approximately 92% prototype accuracy.
- Used MediaPipe for hand tracking and an LSTM network for gesture recognition.

CORE SKILLS

Business Operations & PMO: Project Monitoring, Project Coordination, Stakeholder Coordination, Operational Reporting, Action Tracking, Resource Planning, Proposal Assessment, Vendor Coordination, Management Reporting, Meeting Coordination

Business Analysis & Data: Business Analysis, SQL, MS SQL Server, MySQL, Data Mapping, Dashboard Development, MIS Reporting, Data Visualisation, Microsoft Excel, Cognos

Programming & Technology: Python, JavaScript, React JS, Node.js, Express, Angular (Basic), HTML, CSS, Tailwind CSS, REST API Testing

Tools & Platforms: Git, GitHub, Postman, Linux, Linux VPS Hosting, VS Code, Microsoft Word, Excel and PowerPoint

EDUCATION

B.Tech - Computer Science with Artificial Intelligence and Machine Learning 2021 - 2025

Lakshmi Narain College of Technology, Bhopal | RGPV | CGPA: 8.47

Class XII - CBSE | Campion School, Bhopal 2021 | 85.2%

Class X - CBSE | Campion School, Bhopal 2019 | 83%

RELEVANT CERTIFICATIONS

- Foundations of Project Management - Google / Coursera
- Introduction to Business Analysis - Coursera
- Data Visualization and Dashboards with Excel and Cognos - Coursera
- Microsoft 365 Fundamentals - Microsoft / Coursera
- Full Stack Web Development - Devtown
- DBMS Part - 1 - Infosys Springboard

PUBLICATION

First Author - “Implementation of K-Means Clustering Algorithm with Technical Indicators to Identify Profitable Stocks”

STM Journals | Published 25 April 2024

- Applied K-Means clustering with technical indicators to five Nifty 50 companies using five years of historical data.

ACHIEVEMENTS & LEADERSHIP

- GATE 2025 - Data Science & Artificial Intelligence: Qualified | AIR 5246 | Score 401.
- Rose to Under Officer in the National Cadet Corps (NCC), the senior-most cadet rank held at LNCT Bhopal, and served as Parade Commander for the 15 August 2024 parade.
- Awarded NCC 'B' and 'C' Certificates, both with Grade A, under the NCC Army Wing, MP Directorate, Bhopal Group.
- Participated in Smart India Hackathon 2023 as part of a five-member team working on an AI-based solution for firefighting and rescue operations.
